

Y10/11 Construction Homework

This homework will help to prepare you for year 10 and 11 and is to be completed over the summer. This should be handed in to your teacher no later than **Monday 12 September 2016**.

Task 1: Research the job roles of three construction professionals. One should be a management role such as site manager, one should be a professional role such as an architect or quantity surveyor and one should be a general contractor such as a builder. Write a **job profile for each** to include the entry requirements (**qualifications needed**), **salary, duties and responsibilities**.

You may find the following site helpful:
